

CLAUDIO CAPUTO

University “La Sapienza” of Rome - “Facoltà di Scienze Matematiche, Fisiche e Naturali”

Associate Professor in Physical Geography

ACADEMIC CAREER

His research activities relate to Physical Geography and to Geomorphology. More in detail they concern Quantitative geomorphic analysis, Volcanic Geomorphology, Planetary geomorphology and above all Coastal Geomorphology and coastal dynamics. His scientific activity in this sector is dedicated to define shoreline variations, coastal physiography, wave climate and to the reconstruction of morphological and sedimentological evolutive trend of some coastal stretches belonging to Southern Toscana, Latium and Tyrrhenian and Ionian Calabria.
